**Subject:** RE: chemist 1 interview

Hi Sonja, sorry for not getting back to you sooner, but we just got approval from Personnel to fill the Chemist 1 position. We are offering you the position. If you accept the offer you would probably be starting in 4-6 weeks. We have a couple of forms that have to be filled out. You can call me at Xt 6631, or email me. I hope you're still interested. Talk to you later.  
Chuck Salemi  
Lab Supervisor 1  
Drug Analysis Lab

I would like to thank both of you for taking the time to talk with me yesterday regarding the chemist 1 opening. From the initial posting and from the discussion we had, I feel that my academic experience is exactly what is necessary to perform the tasks at hand. I am young and eager to learn everything I can about the drug analysis laboratory, and promise not to let you down given the position. I realize that there are many other qualified candidates, so if there is anything else I can do to prove to you that I am the right person for the job, please let me know. My references and transcripts are readily available should you desire them. Once again, thank you and I look forward to hearing from you.

Respectfully,

Sonja Farak
